

Advanced Apprenticeship: Level 3

Advanced Apprenticeships and the apprenticeship framework

Apprenticeship Framework:
the levels

Why should I do a Level 3 Advanced Apprenticeship in Adult Social Care?

The Advanced apprenticeship in Health/ Social Care is the next step in the apprenticeship frame work following on from level 2. If your goal is to reach a higher professional role in heath and social care through the higher education pathways—you are only one level away.

Description

Completion of the Advanced Apprenticeship will stand you in good stead for progression onto Higher Education in subjects like nursing or midwifery and operating department practitioner roles in the care sector or management roles in care homes. The main difference between the Intermediate Level and Advanced Level Apprenticeships is the level of responsibility the person holds and the role at which they work.

Alternatives to advanced apprenticeships

At this point you would have completed a level 2 qualification in adult health or social care. You will have solid experience working within the health and social care sector, and be able to demonstrate a good range of skills within care.

Access course (in relevant field) | A-Levels | Advanced progression diploma | VRQ Level 3 (BTEC National) | Level 3 accreditation through APEL

For more information on alternative career pathways in adult social care please visit: <http://www.skillsforcare.org.uk/>

What roles you will be qualified for

Administrator | Care supervisor | Cook | Senior Care Assistant | Senior Care Worker/Carer | Supervisor of Specific Services | Team Support Officer
